

Intex South Asia was created as a meeting point to bring the best in yarns, apparel fabrics, denims and allied services from around the world to interact with buyers from the biggest manufacturing and consuming region in the world - South Asia and other international textile and apparel markets.

South Asia's textile and apparel industry is the world's largest after China and has huge demand for new yarns, fabrics, clothing accessories, etc. to cater for export markets along with large domestic consumption. Therefore, Intex South Asia would provide you a direct opportunity to promote your textile products and services to prospective buyers as well as existing customers in South Asia region under one networking platform. Also, it would assist you to explore new market opportunities, know about next season's trends and forecast, improve your supply chain and diversify your brand in this dynamic market. You have to be @ Intex South Asia to enter South Asia region!
